[An Urgent Petition Against The Repatriation of Falun Gong Practitioners by The South Korean Government](#)

August 2009

On July 1st and 28th, 2009, respectively, three Falun Gong practitioners have been repatriated to China by the South Korean government. We are deeply shocked and saddened by the act of the South Korean government that allowed it to happen.

The South Korean government joined the UN Convention related to the Status of Refugees (1951) and the Protocol related to the Status of Refugees (1967); it also joined the Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment, which was recognized by the Korean Parliament and implemented from February 8, 1995. On the 1st paragraph in Article 3 of the UN Convention against Torture, it clearly states: "Any country should not repatriate a foreigner who would suffer a possible interrogates and tortures when returning to his/her own country."

Jiang Renzheng, a Falun Gong practitioner who had lived in Germany from 2001, was deported back to China in March 2005 together with his wife and children. Two weeks later, Mr. Jiang was kidnapped by local police and then sentenced to three years of labor camp in northern China without any legal proceedings.

In the past decade, it's been well-documented that more than 3200 Falun Gong practitioners have been persecuted to death. The persecution of Falun Gong by the CCP has extended from mainland China to overseas. Every Falun Gong practitioner is the target of the CCP. Reported by Wall Street Journal, the first Falun Gong victim, Ms. Chen Zixiu, who had been persecuted to death, was just a regular elderly woman.

Please help let South Korea government know that it is immoral to repatriate Falun Gong practitioners who will certainly face immediate persecution.

We sincerely appreciate your help!
